

Legacy Finding Aid for Manuscript and Photograph Collections

801 K Street NW
Washington, D.C. 20001

What are Finding Aids?

Finding aids are narrative guides to archival collections created by the repository to describe the contents of the material. They often provide much more detailed information than can be found in individual catalog records. Contents of finding aids often include short biographies or histories, processing notes, information about the size, scope, and material types included in the collection, guidance on how to navigate the collection, and an index to box and folder contents.

What are Legacy Finding Aids?

The following document is a legacy finding aid – a guide which has not been updated recently. Information may be outdated, such as the Historical Society’s contact information or exact box numbers for contents’ location within the collection. Legacy finding aids are a product of their times; language and terms may not reflect the Historical Society’s commitment to culturally sensitive and anti-racist language. This guide is provided in “as is” condition for immediate use by the public. This file will be replaced with an updated version when available.

The Historical Society of Washington, D.C., is a community-supported educational and research organization that collects, interprets, and shares the history of our nation’s capital. Founded in 1894, it serves a diverse audience through its collections, public programs, exhibits, and publications.

THE HISTORICAL SOCIETY OF WASHINGTON, D.C.

SPECIAL COLLECTIONS FINDING AID

Title: MS 366 James M. Goode Apartment House Research Collection, 1880-2002 (bulk 1880-1988)

Date: January 1989 (revised March 2005, February 2015)

James M. Goode is a noted Washington historian and author of several important books including *The Outdoor Sculpture of Washington, D.C.*; *Capitol Losses: A Cultural History of Washington's Destroyed Buildings*; and *Best Addresses, a Century of Washington's Distinguished Apartment Houses*. Mr. Goode has generously donated much of his research material to The Historical Society of Washington, D.C. Library.

Scope and Content: The James M. Goode Apartment House Collection, 1880-2002 (bulk 1880-1988), consists of research files, photographic prints and slides. The material was primarily created during the years 1978-1988 when Mr. Goode and his staff were engaged in research for a major book on the social and architectural history of Washington area apartment houses, 1880-1988. This research was published in Goode's *Best Addresses: A Century of Washington's Distinguished Apartment Houses* (Washington, D.C.: Smithsonian Institution Press, 1988). The book was republished in 2003 with additions; Series I, subseries D, comprising research material relating to the second edition, was added to the collection in 2015.

The collection is arranged in two series:

SERIES I: RESEARCH FILES consists of non-photographic research materials, including original apartment house brochures, blueprints, field notes, and hundreds of newspaper articles. Of particular importance are over 200 articles on American apartment houses that appeared in American architectural magazines between 1870 and 1976. Most of the file folders on Washington architects of local apartment houses have been removed and are filed in the James M. Goode Collection of Washington, D.C. Architects, also at the Historical Society of Washington, D.C. (MS 384). The series is arranged into four subseries:

Subseries A: American Apartment Houses (outside of Washington, D.C.)

Subseries B: European Apartment Houses

Subseries C: Washington, D.C. Apartment Houses (and general files).

Subseries D: *Best Addresses*, Second Edition Research files [added in 2015]

SERIES II: PHOTOGRAPHS is arranged into three corresponding subseries:

Subseries A: American Apartment Houses (outside of Washington, D.C.)

Subseries B: European Apartment Houses, consists of approximately 500 European

photographic prints taken by James M. Goode on a research trip to Europe in 1985. In addition to the above, some 200 color photographic prints of Paris apartment houses are included. These were taken by Mr. Peter Robinson of Edinburgh, Scotland (then working on a history of Scottish apartment houses), who was a guest on the same 1985 European research trip organized by Mr. Goode. The color photographs are filed in the respective folders with the black and white photographs of each Paris apartment house included

Subseries C: Washington Apartment Houses, consists of approximately 5,000 Washington photographic prints that were taken by professional photographers James Stafford Phillips and James Franklin Tetro between 1980 and 1987.

Donor: James M. Goode, 1986.051, 2014.053

Size: 46 cubic ft. (86 boxes)

Restrictions: This is a research collection that includes photocopies of published materials and copy prints of photographs. The entire collection of the Washington black and white negatives were donated by the author and two photographers to the Photographic Archives of the National Gallery of Art, Washington, D.C. The public may order prints from that office. All of these photographs are copyrighted and may not be published without written permission of the photographers.
