

## Legacy Finding Aid for Manuscript and Photograph Collections

801 K Street NW  
Washington, D.C. 20001

### What are Finding Aids?

Finding aids are narrative guides to archival collections created by the repository to describe the contents of the material. They often provide much more detailed information than can be found in individual catalog records. Contents of finding aids often include short biographies or histories, processing notes, information about the size, scope, and material types included in the collection, guidance on how to navigate the collection, and an index to box and folder contents.

### What are Legacy Finding Aids?

The following document is a legacy finding aid – a guide which has not been updated recently. Information may be outdated, such as the Historical Society’s contact information or exact box numbers for contents’ location within the collection. Legacy finding aids are a product of their times; language and terms may not reflect the Historical Society’s commitment to culturally sensitive and anti-racist language. This guide is provided in “as is” condition for immediate use by the public. This file will be replaced with an updated version when available.
